I am a pub/club/RSL that regularly programs live music. Am I eligible to apply?

The LMSP is designed to provide financial assistance to venues that exist primarily to program original live music. While we acknowledge that a range of venues support live music in different ways, venues that primarily provide non-music related services such as pubs, clubs and RSLs are not eligible to apply for support through the LMSP.

How do I evidence a history of original live music programming?

Providing evidence of past original live music programming is required to provide AQ with a clear demonstration that your business satisfies the LMSP definition of a live music venue. Evidence can take the form of internal venue programming documents, such as Excel spreadsheets, ticketing reports, or social media reports if available. Programming evidence must contain, at a minimum, performance date, artist name, ticketed / non-ticketed, and whether the artist is performing original music. An example excel template is available on the AQ website.
